

The page is decorated with soft, watercolor-style illustrations of white roses and green leaves. The flowers are positioned in the top-left, top-right, bottom-left, and bottom-right corners, framing the central text area. The leaves are scattered around the roses, adding a natural, garden-like feel to the design.

Dear

*We ask a blessing for you both as you embark on a new phase in your lives through your marriage.*

*Our prayer is that you both always know happiness and contentment with each other and that all your days are blessed, and your home be a place of joy and serenity.*

*May the Spirit, who has brought you to this commitment to each other, abide with you and your family all the days of your lives.*
