

PERSEVERANCE

May Our Lord continue to grant you His holy graces and increase them constantly so that you may persevere in His love and service.

Spiritual Writings. Pg. 346 L. 300

Farmers know that they cannot control the outcome of their labours. They are pulled into the reality of uncontrollable weather—yet year after year, they continue to plant. Farmers teach us perseverance. You also will have uncontrollable aspects and issues in your services—like a Farmer, you need to persevere.

- What difficult situation am I facing at the moment?
- Does the image of a farmer help you to persevere when things are out of your control?
- Do I persevere when things don't go my way or do I get frustrated and just give up?

Dear God, give me your grace to persevere especially in difficult situations that I can't control or see any outcome to, so that I may remain at peace in my service to those in need.

Amen.
